

**Features:**

- Case hardened 'U' bracket for bolting behind rear door handle.
- Fasteners are shielded when door handle is in closed position (Standard length bolts are 50mm).
- Uses Bulldog Super Lock Bolt. Case hardened 1" (25.4mm) diameter body. Drill and pick resistant lock with over one million possible key combinations. (See separate sheet).
- 2 keys supplied with lock as standard. Multiple locks can be supplied with same key for fleet or multi user applications.
- Backing plate supplied for fitting inside door for re-inforcement.
- Simple to fit, only two holes 13mm diameter need to be drilled in rear doors.
- Easy to operate, only the Lock Bolt needs to be removed to allow doors to open, no other loose components.
- Lock Bolt can only be locked/unlocked using key, no accidental locking possible.
- Patent No. 2 337 079.
- Weight = 2.1kg
