Steering Wheel Lock Data Sheet

Designed and Manufactured in England

Features:

- Robust construction, quick and easy to fit to most steering wheels, with or without an air bag.
- Highly developed, British lock, 10 pin drill and pick resistant with a million plus key combinations.
- Bright yellow powder coated body, with plastic dipped hooks to cradle steering wheel.
- No keys needed to fit the Bulldog, simple snap shut lock.
- Restricts steering wheel movement, making driving away with lock fitted almost impossible.
- Multi fit holes to fit a variety of steering wheel diameters.
- Prevents the theft of air bags.
- Models available:

BW550 - Cars with bulbous airbags (Inside diameter of the steering wheel rim. Min 285mm - Max 365mm approx) 3.9kg (Overall Length 630mm). Fits airbags that protrude up to 20mm. Fits a steering wheel thickness up to 45mm.

BW600 - Motor Homes, Vans, HGV's & VW Campers (Inside diameter of the steering wheel rim. Min 320mm - Max 450mm approx) 4.1 kg (Overall Length 780mm) Fits a steering wheel thickness up to 45mm.
