

BT Mini Lock Fitting Instructions

Warning: Under no circumstances should you use this Mini Lock or any other type of hitch lock when actually travelling.

1. Insert dummy ring plate when trailer is unhitched by lifting handle and pushing into place.

2. Position chains to allow bottom channel to pass over easily.

3. Offer up bottom channel with the tall fill in strip at the front. Ensure the chain does not infringe on the hole as it will prove difficult to insert the lock bar.

4. Place the red top box over the bottom channel and lower until holes line up. Insert the lock bolt through the holes and put cap over the end. Turn key quarter turn clockwise to lock and remove key.

WARNING: Before unlocking Mini Lock with keys provided, please remember to support base with hand **I.e Mind your feet**
