

Fitting

1. Slide both halves of the CT550 over the door handles and engage lock by pressing into the receiving holes until lock clicks shut.
2. Rotate lock cover plate into position to protect the lock from ingress of debris.
3. Security seals can be placed through the holes (A) provided if required. Hole (B) is used for transporting the lock when not in use.
4. To remove Container Lock, insert key, rotate half turn, pull on key/or press both halves of Container Lock together until lock springs out.

We have taken every care in the design and manufacture of this security device and we believe that it is an effective deterrent. However we cannot guarantee that it will resist the efforts of the most determined thief, and as such we do not accept any liability for loss or damage caused by theft, vandalism or other illegal activity against property to which this device is fitted.
