

1. Position the bracket in a suitable area that allows for the size of the tool and secure it in place using the security screws provided. Please note once fixed in position it will not be possible to remove the screws.

2. Position the tool onto the wall bracket as shown.

3. Lift the tool slightly and push the disc assembly onto the wall bracket. Secure it in place using the padlock provided.

For further information on the padlock please see the separate instruction.

We have taken every care in the design and manufacture of this security device and we believe that it is an effective deterrent. However we cannot guarantee that it will resist the efforts of the most determined thief and as such we do not accept any liability for loss or damage caused by theft, vandalism or other illegal activity against property to which this device is fitted.
