

Portable Security Case Data Sheet

Laptops stowed loose in the boot of a car are easy targets for thieves.

The Lapstop case, although originally designed to secure laptop computers can also be used for valuable and irreplaceable items such as:

- Video Cameras
- Mobile Phones
- Tools and Equipment
- Documents
- Prototypes

The security case is totally versatile and can be used in vehicles, offices or at home by simply wrapping the supplied cable lock to a fixed object.
